DELIVERING **EXCELLENCE.**

ABOUT US

**BUILDING INTELLIGENT SOLUTIONS.
DELIVERING EXCELLENCE.**

WHO WE ARE

BIMPhase Solutions is a BIM consulting company based in India, delivering high-quality BIM modeling and coordination services across the construction project lifecycle.

We work across Architecture, Structure, and MEP disciplines, delivering coordinated BIM solutions with precision, efficiency, and technical excellence.

OUR EXPERTISE

- ✓ BIM Modeling (Architecture, Structure & MEP)
- ✓ Clash Coordination & Resolution
- ✓ Shop Drawings
- ✓ 4D BIM (Time/Scheduling)
- ✓ 5D BIM (Cost, Quantities)
- ✓ ISO 19650 Compliant
- ✓ Value Engineering

WHAT SETS US APART

END-TO-END BIM SOLUTIONS

From Concept to As-built (LOD 100 – 500) with accuracy and clarity.

COLLABORATION FOCUSED

Enhancing coordination across disciplines to minimize risks and rework.

QUALITY & ACCURACY DRIVEN

Delivering clash-free, construction-ready models that ensure confidence.

VALUE & INNOVATION LED

Delivering smarter solutions that create value and drive project success.

OUR COMMITMENT

We are committed to delivering reliable, coordinated, and future-ready BIM solutions that empower our clients to build better, faster, and with confidence.

PRECISE DESIGN

Accurate from concept to construction.

INTEGRATED DELIVERY

Aligned processes for consistent results.

SMART SOLUTIONS

Technology-driven BIM for better outcomes.

EFFICIENT EXECUTION

Optimized workflows that save time and cost.

TRUSTED EXPERTISE

Experienced team. Reliable results. Every time.

OUR SERVICES

Integrated BIM solutions that drive precision, enhance collaboration, and deliver projects from concept to completion.

1 MEP DESIGN & BIM SERVICES (LOD 100 – LOD 500)

- HVAC BIM Modeling
- Electrical BIM Modeling
- Plumbing BIM Modeling
- MEP Design Services
- Fire Protection BIM Modeling

2 ARCHITECTURE DESIGN & BIM (LOD 100 – LOD 500)

- 3D Architectural Modeling
- Concept-to-Detailed Design Development
- Space Planning & Area Validation
- Facade & Interior Modeling
- BIM-Based Design Documentation

3 STRUCTURAL DESIGN & BIM (LOD 100 – LOD 500)

- Structural 3D Modeling (Concrete & Steel)
- Rebar Modeling & Detailing
- Foundation & Superstructure Modeling
- Structural Shop Drawings
- Structural Quantity Take-Offs

4 BIM COORDINATION SERVICES

- Early clash detection for seamless multidisciplinary coordination and efficient delivery.

5 REVIT PARAMETRIC FAMILY CREATION

- Intelligent Revit parametric families tailored to project and client LOD/LOIN requirements.

6 BIM 4D SCHEDULING

- 4D BIM simulations that visualize schedules, improve coordination, optimize resources, and support timely project delivery.

7 BIM 5D COST ESTIMATION & QUANTITY TAKE-OFF

- Accurate quantity extraction, smarter budgeting, and effective cost control through 5D BIM.

8 VISUALIZATION / RENDERING SERVICES

- Realistic 3D renderings that enhance design communication and support confident decision-making.

ENGINEERING **PRECISION.** DELIVERED **DIGITALLY.**
